PROFESSIONAL SUMMARY

Detail-oriented B.Tech final-year Data Science student with hands-on experience in data analysis, SQL, Excel, Power BI, Python, and data visualization. Skilled in data cleaning, exploratory analysis, KPI development, customer and marketing analytics, and translating data into actionable business insights. Seeking an entry-level Data Analyst role to apply analytical problem-solving and dash boarding skills in a data-driven environment.

TECHNICAL SKILLS

Analytics & BI	SQL, Power BI, Microsoft Excel, Data Visualization, KPI Reporting, Exploratory Data Analysis
Programming	Python, Pandas, NumPy
Data & Databases	PostgreSQL, MySQL, SQL Server, Data Cleaning, Data Transformation, Relational Data
Analytics Concepts	Statistical Analysis, Customer Analytics, Marketing Analytics, Cohort/Retention Analysis, Profitability Analysis
Tools	Jupyter Notebook, VS Code, Git/GitHub

PROJECTS

Coffee Quality Analytics Dashboard | Power BI, Excel/CSV → [GitHub](#)

- Analyzed 207 coffee samples across 31 attributes, 22 countries, and 120 regions to identify quality patterns across origin, processing method, variety, and sensory attributes.
- Built an interactive Power BI dashboard with KPI cards, quality-attribute analysis, origin/region comparisons, processing-method analysis, and defect indicators.
- Derived actionable insights from Aroma, Flavor, Acidity, Body, Balance, Overall Score, Total Cup Points, and defect measures to support quality benchmarking.
- Identified Ethiopia as a leading displayed origin by average Total Cup Points and highlighted the highest-scoring sample at 89.33 points from Piendamo, Cauca, Colombia.

Marketing Performance & Customer Acquisition Analytics | PostgreSQL, SQL, Excel → [GitHub](#)

- Cleaned and standardized 67,086 order records, removing 150 duplicate rows and normalizing acquisition-channel variations before analysis.
- Developed analytical SQL using CTEs, joins, aggregations, CASE expressions, filters, and window functions to evaluate revenue, CAC, CLV, retention, CSAT, refunds, and realized profit.
- Analyzed 20,000 customers and identified channel-level acquisition quality, first-purchase retention, customer-support impact, and influencer return patterns.
- Found high-CSAT customers had a 52.2% repeat rate versus 29.6% for low-CSAT customers; influencer return rate was 42.7% versus 10.2% for paid social.
- Prepared Excel-based analytical summaries and executive recommendations for campaign attribution, customer retention, and marketing budget decisions.

Delicious Pizza Sales Dashboard | Power BI → [GitHub](#)

- Developed a Power BI sales dashboard using Sales, Branch Data, Daily Target, and Sales Target data to monitor revenue performance and business targets.
- Created KPI-driven visual analysis for sales amount, daily performance, branch-level results, and target tracking.
- Used interactive Power BI visuals and filters to support performance comparison and data-driven sales monitoring.

INTERNSHIP EXPERIENCE

Data Analytics Intern | NoviTech R&D Private Limited | Mar 09 2026 – Apr 09 2026 → [Certificate](#)

- Completed a one-month Data Analytics internship with practical exposure to data analysis and analytical problem-solving workflows.
- Worked with analytical concepts and data-driven workflows aligned with entry-level Data Analyst responsibilities.

EDUCATION

Kommuri Pratap Reddy Institute of Technology | B.Tech in Data Science | Aug 2023 – May 2027 | CGPA: 7.8

Model Junior College | Intermediate (MPC) | Jun 2021 – May 2023 | 95%

Gayathri Concept High School | SSC | May 2021 | CGPA: 10

CERTIFICATIONS

- AI Skills Passport — EY & Microsoft
- AI for Sustainability — IBM SkillsBuild
- AnalytIQ – Data Analytics Program | Sketch Brains × KPRIT | 2026 → [Certificate](#)
